Erik and Sarah,

I need your approval on the attached updated Reg Agenda Entry for the subject rulemaking.

I corrected a spacing error in the abstract and updated the scheduled publication of the NPRM to 4/14/2014. As such, in accordance with Gerain's instructions, I am including the revised schedule, here.

Good afternoon.

It's that time of year when we need to update our Regulatory Agenda entries. See the attached entry.

Please note that some of the "questions" in the attached entry do not have the full question or full range of possible answers showing on the attached entry. The attached instructions contain the full questions and full range of possible answers. Therefore, **please refer to these instructions when reviewing the attached entry.**

You need to obtain both OGC and OP level approval on each Regulatory Agenda entry, and modify the entry accordingly, as appropriate, prior to submitting to me. (These approvals should come from your workgroup representative from these offices.) **I need to have the OGC and OP responses either (1)** in a document mark-up or email text, as well as the date of their approval sent to me with your submission of your entry **or (2)** inputted by your OGC and OP representative into the ADP Tracker database, the system the Agency uses to submit Regulatory Agenda, for each entry and an email sent to programs (so you can address comments) and to me. **I need a record of what OGC's and OP's responses are.**

Further you need to **obtain your OD approval on the entry and, especially, the schedule.** While the Reg Agenda entry only requests for the FR publication date, if you change the publication date, then the schedule for the rule's development also changes. As such, please provide me the updated schedule for the rule. At this point in time, the schedule for most of these rules should be updated.

Your entry is due back to me (with OGC, OP and your OD approvals), along with any schedule changes (with your OD approval), by no later than **February 15 COB.**

If you have any questions, please contact me.

Thanks.
